

DXP Catalyst

Page Inventory and Sanity Content Model

Site Replatform Planning — v1.0

Offering Structure

Two distinct offerings, no size-based segmentation.

DXP Advisory

The core offering. Platform advisory, selection, and post-selection architecture and roadmap work, underpinned by a MarTech and digital ecosystem assessment. Work flows as a natural progression:

- Ecosystem Assessment: understand the current state, identify gaps and opportunities
- Platform Selection: vendor-neutral evaluation using a two-track framework (composable vs. pre-composed), RFP support where appropriate
- Architecture and Roadmap: post-selection, defining the path forward

Advisory runs throughout all phases rather than being a separate service. Engagement model: flexible, shaped around what the client actually needs. Internal methodology: Digital Blueprint Design framework (not client-facing by name). Target client: upper mid-market companies modernizing their digital ecosystem to drive growth.

HubSpot and Salesforce Advisory

Full ecosystem advisory, implementation, and migration support across HubSpot and Salesforce. Covers: HubSpot Sales Hub, Marketing Hub, Salesforce CRM, SFMC, Data Cloud, Einstein, and platform migration between ecosystems. No size restriction.

Navigation Structure

Simplified from the current 3-level nav to 2 levels maximum.

Insights

Contact

[Book a Consultation] <- persistent CTA button in nav header, not a nav link

- "Book a Consultation" is a persistent CTA button in the nav header, not a nav link.
- Enterprise/SMB split removed entirely.
- Individual sub-service pages collapsed into two offering pages.
- Our Expertise, Why Choose Us, and Benefits removed as standalone pages — content folded into About and service pages.

Page Inventory

1. Homepage

homePage (singleton)

URL

/

Sections

- Hero: headline, subheadline, primary CTA
- Positioning statement: who we work with, what we help them accomplish
- Two offering cards: DXP Advisory and HubSpot and Salesforce Advisory, each with summary and link
- How we work: how engagements are shaped around what the client actually needs, applicable to both offerings
- Testimonials: 1 to 2 quote cards
- Insights preview: 3 latest posts from DXP Catalyst Update
- Newsletter signup strip: single CTA linking to DXP Catalyst Update on Beehiiv
- CTA banner: bottom of page, links to Book a Consultation

Sanity Fields

```
heroHeadline: string
heroSubheadline: string
heroCtaLabel: string
heroCtaUrl: string
positioningText: portableText
howWeWorkText: portableText
testimonials: array of reference -> testimonial
showInsightsPreview: boolean
newsletterStripHeadline: string
```

```
newsletterSignupUrl: string

ctaBannerText: string

ctaBannerCtaLabel: string
```

2. About

aboutPage (singleton)

URL </about>

Sections

- Intro: who DXP Catalyst is, background, what drives the practice
- Our Approach: how engagements work (flexible, assessment-led)
- Why Work With Us: differentiators (vendor-neutral, practitioner not theorist, cross-ecosystem experience)
- Leadership: headshot, bio, LinkedIn

Sanity Fields

```
headline: string

introText: portableText

approachHeadline: string

approachText: portableText

differentiators: array of { title: string, description: string }

leadershipTeam: array of reference -> teamMember
```

3. Team Member

teamMember

URL [No standalone page – referenced from About](#)

Sanity Fields

```
name: string

title: string

bio: portableText

headshot: image

linkedInUrl: url
```

4. DXP Advisory

servicePage

URL </services/dxp-advisory>

Sections

- Hero: clear statement of what this offering is
- The progression: how the work flows across ecosystem assessment, platform selection, and architecture and roadmap — described as a connected process, not a menu of services
- Two-track evaluation: callout on the composable vs. pre-composed framework used during platform selection, with link to CMS Critic article as supporting evidence
- Engagement model: shaped around what the client actually needs — advisory can span the full progression or focus on a single phase; engagements flex to the situation
- Who this is for: upper mid-market companies modernizing their digital ecosystem to drive their next wave of growth
- Representative work: brief Risepoint reference with link to CMS Critic article
- Testimonials: testimonial documents tagged 'dxp'
- CTA: Book a Consultation

Sanity Fields

```
title: string

slug: slug

heroText: portableText

progressionText: portableText

progressionPhases: array of { phase: string, description: string }

twoTrackCallout: { headline: string, body: string, articleUrl: url }

seo: { metaTitle: string, metaDescription: string }
```

5. HubSpot and Salesforce Advisory

servicePage (same schema, different content)

URL </services/hubspot-salesforce>

Sections

- Hero: clear statement of what this offering covers
- What we do: advisory and implementation across both platforms and ecosystems, including migration

- Platform areas: HubSpot ecosystem (Sales Hub, Marketing Hub) and Salesforce ecosystem (CRM, SFMC, Data Cloud, Einstein) described separately within one offering
- Migration advisory: current state assessment, migration planning, and implementation support in both directions
- Who this is for: growth-stage companies and global enterprises (no size restriction)
- Representative work: Cornerstone (HubSpot, growth-stage) and Hisense (Salesforce migration, global enterprise)
- Testimonials: testimonial documents tagged 'crm'
- CTA: Book a Consultation

Sanity Fields

(same servicePage schema as DXP Advisory, different slug and field content)

6. Insights

insightsPage (singleton, page config only)

URL </insights>

Sections

- Headline and intro text
- Feed: DXP Catalyst Update issues fetched from Beehiiv public subdomain at build time, merged with Sanity-authored posts, sorted by date descending
- Newsletter signup CTA: link to DXP Catalyst Update Beehiiv signup page
- Note: Beehiiv posts fetched via ISR (revalidate every hour). Clicking a post opens it on Beehiiv in a new tab. If fetch fails, show static fallback.

Sanity Fields

```
headline: string

introText: string

beehiivSubdomainUrl: string

newsletterSignupUrl: string

showSanityPosts: boolean
```

7. Insight Post (Sanity-authored)

insightPost

URL [/insights/\[slug\]](/insights/[slug])

Sections

- For original content authored directly in Sanity rather than via Beehiiv.

Sanity Fields

```
title: string
```

```
slug: slug

publishedAt: datetime

author: reference -> teamMember

summary: string

body: portableText

tags: array of string

featuredImage: image

seo: { metaTitle: string, metaDescription: string }
```

8. Contact

contactPage (singleton)

URL </contact>

Sections

- Intro text
- HubSpot contact form embed
- Email and phone as plain text fallback

Sanity Fields

```
headline: string

introText: string

hubspotFormId: string

hubspotPortalId: string

email: string

phone: string
```

9. Book a Consultation

bookingPage (singleton)

URL </book>

Sections

- Short intro text
- HubSpot meeting scheduler embed (connected to M365/Teams calendar)

Sanity Fields

```
headline: string
```

```
introText: string

hubspotMeetingUrl: string
```

10. Testimonial

testimonial

URL [No standalone page – referenced from Homepage and service pages](#)

Sanity Fields

```
quote: text

attribution: string (name, title, company)

tag: "dxp" | "crm" | "general"
```

11. Case Study

caseStudy

URL [/work/\[slug\]](#)

Sections

- Client: name or anonymized placeholder pending permission
- Industry
- The Challenge: what the client was facing and why they engaged DXP Catalyst
- What We Did: the work and approach, shaped to the situation
- Outcome: what changed or was delivered
- Related offering: link back to the relevant service page
- CTA: Book a Consultation
- Two at launch: Risepoint (DXP Advisory) and Cornerstone Financing (HubSpot and Salesforce Advisory)

Sanity Fields

```
title: string

slug: slug

clientName: string (placeholder if not yet approved for public use)

clientType: string (e.g. 'PE-backed EdTech', 'Growth-stage financial services')

industry: string

publishedAt: datetime

relatedOffering: reference -> servicePage

challenge: portableText

whatWeDid: portableText
```

```
outcome: portableText

isAnonymized: boolean

seo: { metaTitle: string, metaDescription: string }
```

12. Work Index

workPage (singleton, page config only)

URL </work>

Sections

- Headline and short intro
- Grid of case study cards: client (or anonymized), industry, offering tag, link to full case study

Sanity Fields

```
headline: string

introText: string
```

13. Global Site Settings

siteSettings (singleton)

URL [N/A – referenced globally](#)

logoDark: image

phone: string

email: string

linkedInUrl: url

navCtaLabel: string

navCtaUrl: string

footerTagline: string
```

14. Privacy Policy

legalPage (singleton)

URL </privacy>

Sanity Fields

```
title: string

body: portableText

lastUpdated: date
```

Sanity Document Types Summary

Type	Kind	Notes
homePage	Singleton	One document, always exists
aboutPage	Singleton	One document, always exists
bookingPage	Singleton	One document, always exists
contactPage	Singleton	One document, always exists
insightsPage	Singleton	Page config only
workPage	Singleton	Case study index page config
siteSettings	Singleton	Global nav, footer, contact details
legalPage	Singleton	Privacy policy
servicePage	Multi	Two at launch: DXP Advisory and HubSpot and Salesforce Advisory
teamMember	Multi	One at launch
testimonial	Multi	One to two at launch
insightPost	Multi	Original content authored in Sanity
caseStudy	Multi	Two at launch: Risepoint (DXP Advisory) and Cornerstone Financing (HubSpot and Salesforce Advisory)

Pages Removed vs. Current Site

Current Page	Decision
Enterprise Services hub	Replaced by DXP Advisory service page
Small Business Services hub	Removed (no size segmentation)

Digital Blueprint Design (standalone)	Described as methodology flow on DXP Advisory page
MarTech Gap Analysis (standalone)	Phase within DXP Advisory progression
Platform Requirements Alignment (standalone)	Phase within DXP Advisory progression
Platform Assessment and Recommendation (standalone)	Phase within DXP Advisory progression
Architecture and Strategic Roadmap Design (standalone)	Phase within DXP Advisory progression
Advisory and Ongoing Support (standalone)	Covered throughout DXP Advisory page
Website and Portal Development	Removed from offering
HubSpot Sales Enablement (standalone)	Merged into HubSpot and Salesforce Advisory
HubSpot Marketing Activation (standalone)	Merged into HubSpot and Salesforce Advisory
Fractional CIO Support	Removed from offering
Our Expertise (standalone)	Folded into About page
Why Choose Us (standalone)	Folded into About page
Benefits (under Enterprise)	Folded into service pages
